

PF-02 — Project path card

Academy · free worksheet · Track: project-folders · Pair with module PF-02

1. OS

- ☐ macOS
- ☐ Windows native (File Explorer + PowerShell)
- ☐ WSL (Ubuntu or: _____)

2. Full path (leaf must be the project)

Example shape: Documents/Projects/my-app — not Desktop, not Documents alone, not Projects alone.

3. Depth check

- ☐ cwd target is **my project folder**, not the parent Projects list
- ☐ Folder contains at least one real file (README or source)

Project name: _____

- ☐ Existing real project
- ☐ Practice folder for Academy

4. WSL only (if applicable)

Windows path: _____

WSL path: _____

- ☐ I will use **one** of these consistently this week

5. Don't

- ☐ I will not use Desktop / Downloads / drive root as the project home
- ☐ No client PII in the practice folder
